

Amir Cahn, Executive Director, SWAN Forum

Amir joined SWAN in 2013 and has been instrumental in growing SWAN into the leading global hub for the smart water sector. Throughout his time, he has helped engage members, create innovative research such as the SWAN Interactive Architecture Tool and SWAN SMART SCORE, as well as white papers and industry surveys. Amir has also published articles on behalf of SWAN in the Journal AWWA, Australian Water Management Review, and Water and Sewerage Journal. Before joining SWAN, he completed a dual-master's degree in Environmental Science and Public Affairs from Indiana University.
