

Mr. Bob Holden – Monterey Regional Water Pollution Control Agency, California

Bob is the Principal Engineer at Monterey Regional Water Pollution Control Agency where he has worked for 26 years. He helps provide recycled water to the Monterey County Water Recycling Projects for irrigation of 12,000 acres of artichokes, strawberries, lettuce, celery, broccoli, cauliflower, spinach, and other crops. This is the largest food crop irrigation project in the US. He is studying the feasibility of treating waste waters from food processing, agricultural field tile drains, stormwater, and from a sewage treatment plant for indirect potable reuse. He has a BS in Chemical Engineering from University of California at Berkeley and has an MS in Oceanography from Oregon State University. He is a Registered Civil Engineer in California.

He is a member of the WaterReuse Association, Water Environment Federation, American Society of Civil Engineers, and the Farm Bureau.
