

Carlo C. GALLI

Technical Director Water Resources – Corporate Operations - Vevey, Switzerland

Role and Responsibilities

In his capacity, he is key actor in transforming and redefining the water stewardship strategy and program at Nestlé, inspires and guides Nestlé's management at Corporate and Market level in its implementation.

He elaborates the Corporate water stewardship strategy and ensure the adoption of best practices within all Nestlé Operations (e.g.: ~500 manufacturing facilities and agriculture supply chain) aimed at minimizing the threats related to long term water availability, ensuring good relationships and collaboration with international and local stakeholders, and deploying local water initiatives aligned with the “Nestle in Society – Creating Shared Value” framework.

Main competencies and skills are in both the technical and stakeholder engagement's aspects of water resources exploration, management and conservation.

- ⇒ Chair of the “Water & Agriculture” Committee at the “Sustainable Agriculture Initiative” (SAI)
- ⇒ Member of the “International Standard Development Committee” (ISDC) at the “Alliance for Water Stewardship” (AWS)
- ⇒ Advisor to “The Water Network”
