

**Prof. Eyal Shimoni**

*CTO of Strauss Group, and board member of the newly established FoodTech incubator in Israel, by Strauss*

Graduated from the Technion University (BSc, MSc, DSc) with a post doc in the university of Minnesota.

Shimoni was appointed as the first CTO (VP Technology) for Strauss Group ([www.strauss-group.com](http://www.strauss-group.com)) in October 2010. In this position, he is in charge of the Technological strategy for the group, as well identifying, evaluating, and developing innovative technologies with Alpha-Strauss, the Food Tech Community ([www.alphastrauss.com](http://www.alphastrauss.com)). Currently he is also a board member of the newly established FoodTech incubator in Israel, by Strauss.

Prior to his position in Strauss, Eyal was a research professor in the Department of Biotechnology and Food Engineering of the Technion 2000-2013, performing many studies and projects with industrial partners, as well as basic research, mostly in food biophysics and food nanoscience. He is a world renowned researcher in food science and technology, with global network in these fields. Eyal is a proud Technion graduate (BSc, MSc, DSc) (<http://www.technion.ac.il/en/>), with a post doc in the university of Minnesota. To date he published over 70 peer reviewed scientific papers, book chapters and patents. Over the years he consulted to numerous companies, and led various tech transfer projects. Eyal contributed to numerous academic and professional conferences, as a keynote, invited and contributing speaker. These include presentations to the IFT, EFFOST, AACC, NUTRACON, ACS, ISF, IUFoST, AHA, NRC and others.

He is happily married with three children, plays electric guitar and recently became a marathoner.
