

Traci J. Minamide, P.E., B.C.E.E.
Chief Operating Officer
City of Los Angeles, LA Sanitation and Environment

Traci serves as Chief Operating Officer for the City of Los Angeles Sanitation and Environment Department, a department of over 3,000 employees with an annual revenue of \$1 billion. She has been with the City for over 30 years serving in many capacities, including water planning, industrial pretreatment, environmental regulations, wastewater treatment, biosolids, and water reclamation.

Traci holds a Bachelor of Science degree in Civil Engineering from California State Polytechnic University at Pomona, a Master of Science degree in Environmental Engineering from Loyola Marymount University, and certification in Executive Management for State and Local Government from Harvard University. She is also a licensed professional Civil Engineer in the State of California and a Board Certified Environmental Engineer through the American Academy of Environmental Engineers and Scientists. She serves as President for the California Association of Sanitation Agencies (CASA) and was a member of the State of California's Advisory Panel on Direct Potable Reuse.
