

Zella West
General Manager
Nob Hill Water Association, Yakima, WA

Zella West is currently the General Manager of Nob Hill Water Association and has worked in the water industry for the past 30 years. Currently Zella is serving as Vice-Chair of the Washington State Dig Law Safety Committee and has also served as Chair of the Yakima County Planning Commission and the Washington State Utility Coordinating Council. Zella holds a MBA degree in Business Administration from Washington State University.

Nob Hill Water is a small water-only utility that is located in Yakima, Washington. While small in size, Nob Hill Water was the first to purchase the NO-DES flushing truck in the Pacific Northwest to help clean water main lines without water waste and one of the first to use their AMI meters to help protect the potable water system. In 2018, Nob Hill Water made great strides in reducing their lost water.
